Nissan Business & Fleet customers have access to exclusive discounts and incentive programs, including vehicle incentives, financing, upfits & graphics, and service & maintenance programs, to fit your business needs. Special commercial lending available; contact your local dealership for more information.

FRANCHISE VEHICLE SALES PROGRAM

Special incentives for franchisees

A unique part of Nissan Business & Fleet's platform is our Franchisee Program. The purpose of the Franchisee Program is to provide eligible distributors/franchisees the buying power of their collective group and as such make them eligible for our special Franchisee incentive for individual vehicle needs.

Requirements for Eligibility

A Nissan Fleet Certification Code is required. Franchisees do not need to show number of vehicles in operation. Franchisees do have to provide documentation to the Nissan Fleet Department that they are in fact a distributor/franchisee of one of the attached parent companies when applying for the cert code.

GOVERNMENT AND NON-PROFIT

Special incentives for Government and Non-Profit organizations

The Nissan Business & Fleet platform also offers special incentive tiers for government and non-profit organizations. All local and state government entities qualify, without volume requirements, for these very robust discounts. Some discounts apply toward purchases made by non-profit organizations. (You may verify your status and eligibility by utilizing Tax Exempt Organization Search on [irs.gov](https://www.irs.gov).)
